# ABSTRACT

## WHAT IS DOGE QUEEN ?

Doge queen is the brand new of our native token . A completely community driven platform that empower everyone to control their money and create own wealth opportunities to make a BlockChain. Doge queen have a strong meme culture our

Community loves and lives for memes, and we firmly believe that the only way to truly make cryptocurrencies .

People like The doge queen because it's great. Even though it's a meme, it makes comments about mainstream and ensure community adoption is to harness the power of memes .

Our team is spontaneously formed by fans of the doge queen . We want to regain the glory of the doge queen ecosystem . We will bring the memes appeals to everyone : poor or rich, everyone are alike.

## WHAT IS SLIPPAGE ? WHAT IS REDISTRIBUTION ?

Slippage is the total amount percentage wise you pay as a “tax” on the buy and sell transaction. Some contracts have different slippage tax for the buy and sell.

The typical contract usually takes a piece of that “tax” that every transaction consumes and redistributes it to the holders in some way or another.

Doge queen will redistribute some of this “tax” as a reward to our community.

## ABOUT THE DOGE QUEEN

The Doge Queen has inherits baby Doge`s hyper \_ deflation mechanism and each transaction will generate rewards, which will be distributed to all currency holding addresses.

Everyone can earn corresponding wealth by simply holding them . For us, however, it's a bit "impossible to keep up," whether it's the frequent us.-based memes or the hard from early to end

This is a ecosystem community formed by a group of people who love doge queen . They will help each other consciously and express their love for the project .

# DOGE QUEEN COMMUNITY CHAIN

Token holders, amounts, transactions and more can be seen on the blockchain. This is tracked on explorer . Doge Queen is a native BEP-20 token and is powered by the ecosystem. The Doge Queen token dividend is based on a system that is equally proportionally split to the token holders.

This system is fully automated and doesn't add minimal gas fees proportional to value transferred. The number of holders processed through each transaction is dynamic and based on transaction size. Holders will receive dividends from the queen based on their position in the array. It's a fair system, fully automated. Minimum token balance is 500,000 DOGE QUEEN tokens to receive

DOGE QUEEN is the next gem in the Metaverse. Doge queen inherits Baby doge's hyper – deflation mechanism and each transaction will generate rewards , which will be distributed to all holders addresses everyone can earn by simply holding doge queen project. He scribbled some figures with distinctive hairdos and gave them the knowledge for making of ecosystem.

### DOGE QUEEN SECURITY AUDIT AND COMMUNITY SAFETY:

**Liquidity locked (Locked LP tokens):** What this means is that tokens and KCS value that are pushed into the liquidity pool are completely locked. This is an anti-rug pull measure. This keeps both the community safe and happy. A trusted 3rd party will hold the lock contract and act as a middle man for the locked liquidity.

**Team tokens locked:** This means that the tokens that the founding team owns will be locked up for a period of time. Nonetheless, they will release slowly or vested over the period of 6 months. A trusted 3rd party will hold the lock contract and act as a middle man for the locked team tokens.
